Engine Systems, Inc (ESI) is recognized as a leader in providing diesel engines, generators, replacement parts and service for critical standby diesel generators. ESI specializes in nuclear and commercial power generation applications, which include customer installations throughout the world.

ESI understands the importance of equipment reliability and is focused on providing prompt customer service and support on a 24/7 basis. ESI is solutions oriented and capable of providing custom engineered diesel generator packages designed in accordance with customer specifications.

ESI has a long standing commitment to quality and maintains a nuclear quality assurance program in accordance with the requirements of ASME NQA-1, 10CFR50 Appendix B and 10CFR Part 21.

ESI is located in Rocky Mount, NC and has operated as a subsidiary of Kirby Engine Systems, Inc since 1996.
