

**COPES-VULCAN**

An SPX Process Equipment Operation

**Providing Innovative Valve Solutions For Over A Century.**

Copes-Vulcan has been providing VALVES and Desuperheaters for the Power, Pulp & Paper, Water, Oil & Gas, and Petrochemical Industries since 1903, and is recognized worldwide as a leader in valves for severe and critical service applications. Our strength truly lies in our ability to provide innovative solutions for our customers' application problems. The RAVEN™ Control Valve incorporates a unique advanced design that is superb at rapidly reducing flow velocities, resulting in valves that provide quiet, non-cavitating, and non-erosive service. Ultimately, each RAVEN™ trim is specifically designed to provide the finest severe duty control valve in the industry.

*Reducing and Attenuating Velocity, Erosion and Noise*
